HYPE

THE MOST HONEST CRYPTO IN THE WORLD

HYPE rate depends only on its popularity. No bullshit in your ears, just honest risks

CPA & Influence OTC desk

Who needs a whitepaper when you have

THE MANIFEST

Media noise, breaking news, hot social projects are all just a mask that content makers use to get their piece of the pie on a wave of hype. Hype affects every aspect of human life and spreads instantly. It is a wave of pure energy in media space.

You can't touch it, but NOW you can feel it and ride it.

We have created a HYPE indicator - yet one of the kind project, which empowers you to put the Hype for the good use. Honestly and with predictable results.

While others hide behind the mask of media lies and hypocrisy in the form of meme-coins, you can use the most honest approach of identification - a decentralized HYPE with no intermediaries.

REAL HYPE 3.0

Till this exact day the hype was controlling
people, now it is possible to control the hype!

HOW IT WORKS

Like, seriously, do you even care about the details?

Alright then, here’s a sneak-peak of how things are done in here.

HOW TO MINE HYPE?

1

Connect your wallet on the website, go to "mine hype" section and copy your personal promo code

2

Download promotional materials (or make your own) and create a social media post or distribute your promo code in any other way

3

Anyone who uses your promo code will get 10% more tokens when they buy. You'll get 10% of his refill amount in HYPE tokens

4

Go to personal cabinet and claim bonus tokens

EXAMPLE:

A person sees your post, uses your promo code and buys $1,000 worth of HYPE tokens.

He's getting $1,100 worth of tokens and you get $100 worth of tokens)

HOW IT WORKS COPY

Now let's get ready to drain your HYPE balance. Your time to shine has arrived. Push a few buttons and receive your daily dose of hype.

WHY TO SPEND HYPE?

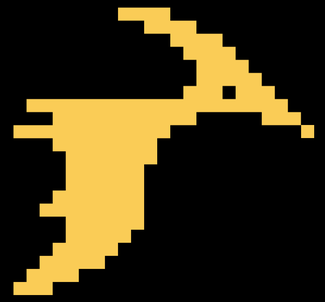
Show everyone anything, for example your product, instagram or some video on youtube!

Specify the number of unique clicks on the link and the cost that you are willing to pay for this task. You can negotiate additional terms using any messenger or social network. The user who accepts the contract will be rewarded only after the terms of the contract are fulfilled.

You can create contracts with payment by your HYPE to get some real life hype!

Goddammit!

PROBLEM? ...

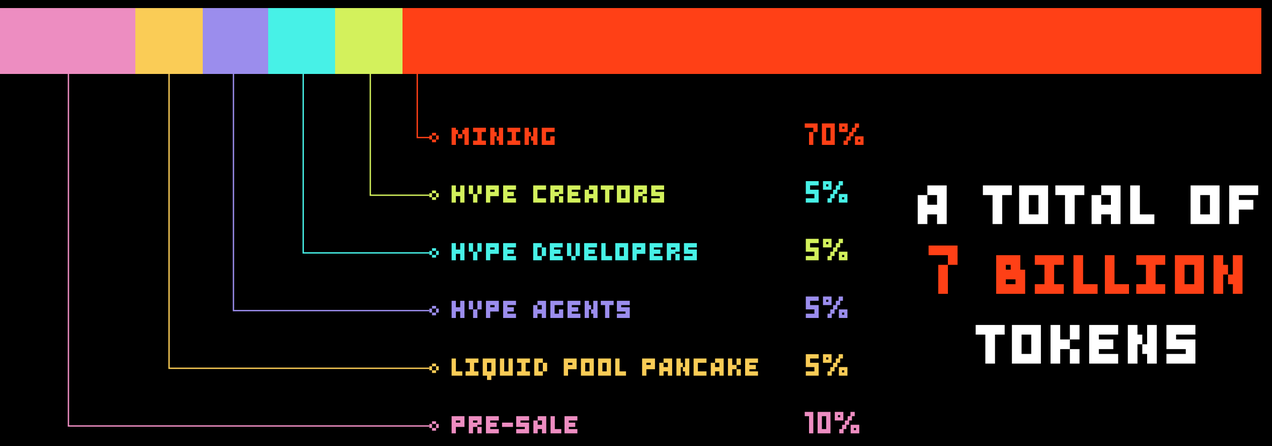


THERE AIN'T NO PROBLEM WITH HYPE.

Especially when the pre-sale and listing prices are $0.003.

TOKENOMICS

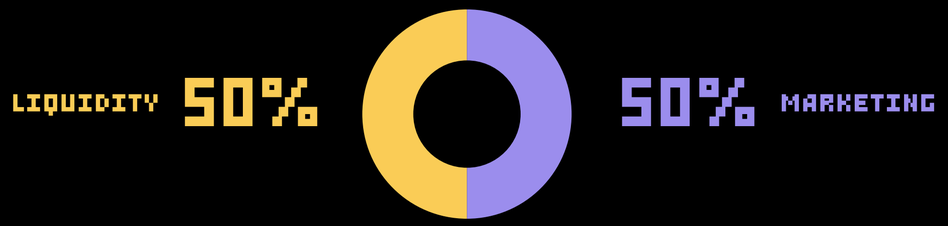
Most of the HYPE goes to honest token mining. The rest is gonna be split between the team, the guys did some work in here, duh. Hype also needs some liquidity, you just know that, right?



A TOTAL OF 7 BILLION TOKENS

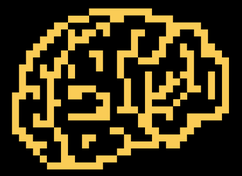
USE OF FUNDS

Money come and go, so we have identified two expense types, where all the funds gained shall be spent. Below is an incredibly complex chart that will help you to understand everything.



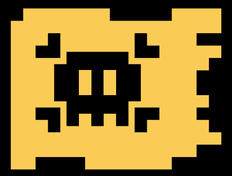
[visible confusion]

THE TEAM



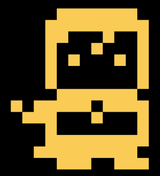
Brains as our CEO

like who the hell listens to him



Creative Director

ofcourse it was his idea....

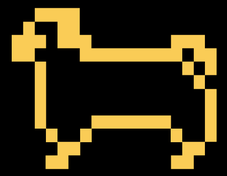


Solution Architect

we don't really know what he's capable of

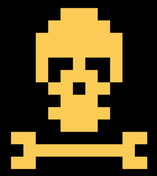
Solodity

could sign a contract with a devil



Frontend dev

he has a puppy



DEVOPS

dead as our server, jk :0

Frontend dev v.2

aka women power

Manager

at least someone looks busy

GET READY FOR HYPE RIDE!

BECOME ONE OF HYPE AGENTS TO GET AGENT TOKENS

Extract HYPE by inviting new members to the platform using your personal promo code. Each week a Hype Mining leader is promoted to become a Hype Agent.

After 100 people become Agents, agent tokens will be distributed among them proportionally to the Hype mining promo code

... and we've finished the development btw.
